Dear Ms. Sabo, Mr. Roach and Mr. Green,

Nebula Glass International (d.b.a Glasslam) is a Florida-based company manufacturing and selling products in the North American glass and window markets. We have attempted to bring a new product to market recently and have encountered what we believe to be anti-competitive and illegal practices by several companies, trade organizations and individuals. Please find the attached complaint letter which details the background, specific events and actions that have led us to this request for action. We look forward to cooperating fully with your staff to help make sure efforts in our industry to suppress competition are eliminated.

Sincerely,

Stephen Howes
CEO
Nebula Glass International
