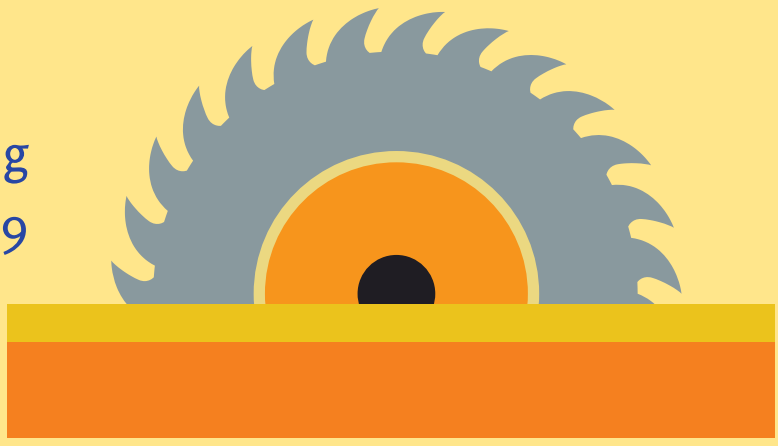
INVESTIGATING MACHINE SAFETY

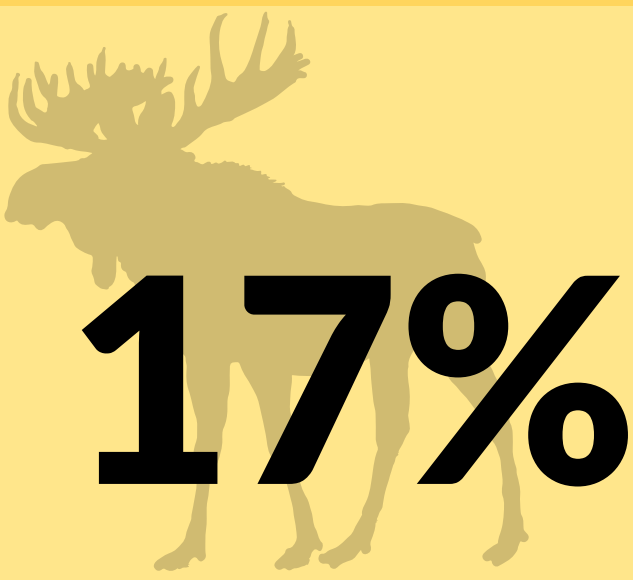
1,773

OSHA machine guarding citations reported for FY 2019



9th

where machine guarding falls on OSHA's annual ranking of top ten violations



17%

the number of Ministry of Labour orders related to inadequate guarding and lockout in Canada

These numbers, coupled with the number of accidents related to machine guarding happening across the U.S. and Canada, prompted Door and Window Market **[DWM]** magazine to investigate this topic. The result is a nine-page feature article that appeared in the March issue, which is hitting mailboxes now.

To view the entire article, which has already sparked input from readers, go to the magazine's March digital edition.
